## **Legends and Bandolero Tire Rule Update - Dominion Raceway**

**Mandatory....all Legends and Bandolero cars will RACE on the tires you QUALIFY on. Track officials reserve the right to "mark / spray paint / label " the tires before or after qualifying laps. These tires MUST remain on the car and used for the feature race that day. This marking will be for that race day ONLY.**

**TWIN RACE NIGHTS --The same set of marked tires will be used for both races that night.**

**If a team needs to remove a tire between qualifying and the race for any reason...the tire must remain in plain site at all times. Tires will not be allowed to be placed in trucks or trailers. You may cover the tire with towels or tire covers.**

**In case of flat / puncture, or debris in the tire... a track official must be notified BEFORE removing the tire from the car and approve the change. If tire change is approved by officials and tire is changed..you MUST start at the rear of the field for that race.**

**If track officials DO NOT mark the tires...tire rules are still in effect.**

**Track officials reserve the right at anytime to check tires to ensure proper marked tires on the car for the race.**

**ALL Va Tire Rules still apply. All tires must be BRANDED to be eligible for competition. You may practice on a un-branded tire.**
