

## **2021 Dominion Raceway Late Model Tech Bulletin 001.21**

The new 4412-15 carburetor that is replacing the 4412-6 has an advantage over the older carburetor. Anyone running the new 4412-15 will be required to use a 1 and 9/16th (1-9/16) restrictor plate that has to be between the base plate and the intake. You can purchase the required base plate from Dominion Raceway.
